

Fastmount Panel Removal Tool

Variant code: CT-05

Fastmount Panel Removal Tool is a professional-grade stainless steel tool specifically designed for the safe removal of **upholstered panels** installed using the Fastmount concealed panel fixing system. Precision engineered for durability and ease of use, this specialist tool allows installers and maintenance teams to quickly release panels without damaging the concealed clips, making servicing, inspection and panel replacement fast and efficient.

Manufactured from high-quality **stainless steel**, the tool provides excellent strength and corrosion resistance for long service life in demanding commercial, marine and transport environments. Its slim profile allows easy access behind upholstered panels, enabling controlled removal while helping preserve both the panel and the Fastmount fixing system. **Please note this tool is intended for upholstered panels only and is not suitable for use on painted panels.**

As part of the award-winning Fastmount installation tool range, the Panel Removal Tool complements the Fastmount concealed mounting system, allowing panels to be removed and refitted repeatedly in any sequence without compromising the integrity of the installation.

Product Features

- Genuine Fastmount panel removal tool
- Designed for removing upholstered panels
- Manufactured from durable stainless steel
- Slim profile for easy access behind panels
- Provides controlled panel removal
- Corrosion-resistant construction
- Professional installation and maintenance tool
- Not suitable for painted panels

Product Benefits

- **Safely removes upholstered panels without damaging Fastmount clips**
- **Stainless steel construction provides**

outstanding durability and corrosion resistance

- **Allows quick access for maintenance, servicing and panel replacement**
- Supports repeated removal and refitting of concealed panels
- Improves efficiency during installation and maintenance work
- Designed specifically for Fastmount concealed fixing systems
- Comfortable, reliable operation for professional users
- Long-lasting tool suitable for frequent use

Technical Characteristics

- Product Type: Panel Removal Tool
- Brand: Fastmount
- Material: Stainless Steel
- Suitable Panel Type: Upholstered Panels
- Compatibility: Fastmount Concealed Panel Fixing Systems
