

Fastmount Panelsafe Easy Fit Surface Mount

Variant code: PS-S150E

Fastmount Panelsafe Easy Fit Surface Mount Clip (PS-S150E) is a professional concealed panel retention solution designed to provide secure, removable fixing for access panels while ensuring they remain safely attached during maintenance or servicing. Featuring a **150mm surface-mount design**, it offers fast installation without the need for routing or recessed fixing, making it ideal for retrofit and surface-mounted applications.

Manufactured from durable engineering-grade materials, the PS-S150E delivers excellent strength, vibration resistance and long-term reliability. As part of the **Fastmount® Panelsafe system**, it securely retains removable panels while allowing controlled access for inspection and maintenance, reducing the risk of accidental panel removal or damage. Its surface-mounted design enables quick installation using standard fixings, providing a practical solution where recessed installation is not possible.

Designed for repeated use, the PS-S150E allows panels to be removed and refitted multiple times while maintaining a secure concealed fixing and a clean, professional finish.

Product Features

- Panelsafe Easy Fit surface mount clip
- **150mm overall length**
- Surface-mounted installation
- Concealed removable panel fixing
- Designed to retain panels safely during maintenance
- No routing or recessed installation required
- Durable engineering-grade construction
- Strong, vibration-resistant performance
- Suitable for repeated panel removal and reinstallation
- Genuine Fastmount® Panelsafe component

Product Benefits

- Simple surface-mount installation saves installation time
- Keeps access panels safely retained

- during servicing
- Eliminates the need for recessed fixing
- Provides a clean, concealed mounting solution
- Allows fast panel removal and reinstallation
- Delivers reliable long-term performance in demanding environments

Technical Characteristics

- **Product Type:** Panelsafe Surface Mount Retention Clip
- **Brand:** Fastmount
- **Model:** PS-S150E
- **System:** Fastmount® Panelsafe
- **Installation Type:** Surface Mount
- **Length:** 150mm
- **Material:** Engineering-Grade Polymer
- **Application:** Concealed Safety Panel Retention
- **Mounting:** Surface-Mounted Removable Panel Fixing

Applications

The **Fastmount PS-S150E Panelsafe Easy Fit Surface Mount Clip** is ideal for **access panels, wall panels, ceiling panels, architectural joinery, marine interiors, transport vehicles, commercial interiors, exhibition displays and industrial enclosures**. It provides a secure, concealed and removable fixing solution that keeps panels safely retained during maintenance while allowing quick removal and refitting for inspection, servicing or repair.

Property	Value
Finish	Plain
Width (mm)	38
Length (mm)	19
Height (mm)	38
Material	Aluminum, Stainless Steel
Weight (g)	30
Fasteners Type	3.5 mm or #6 self tapping screw
