

## Fastmount Service Kit

Variant code: CT-06S

**Fastmount Service Kit** is a comprehensive maintenance kit designed to support the servicing, repair and replacement of **Fastmount Standard Profile concealed panel fixing systems**. Ideal for both on-board marine maintenance and on-site commercial installations, the kit contains a selection of genuine Fastmount clips together with the essential installation and panel removal tools required to carry out routine maintenance quickly and efficiently.

Supplied in a convenient service kit, the CT-06S includes **14 x PC-M1B clips, 4 x PC-M2H clips, 4 x PC-SM2 clips, 4 x PC-SM2H clips, one CT-10 Installation Tool and one CT-05 Panel Removal Tool**. This combination allows damaged or worn clips to be replaced without dismantling the entire panel system, helping minimise downtime while maintaining the integrity of the concealed fixing installation.

As part of the award-winning Fastmount system, the CT-06S Service Kit supports concealed panel installations that allow panels to be removed and refitted repeatedly in any sequence. It is an essential maintenance solution for installers, contractors, marine engineers and facilities maintenance teams responsible for Fastmount Standard Profile installations.

---

### Product Features

- Genuine Fastmount CT-06S Service Kit
- Designed for Fastmount Standard Profile systems
- Ideal for on-board and on-site maintenance
- Includes genuine Fastmount replacement clips and installation tools
- Allows rapid servicing and replacement of concealed panel fixings
- Supplied as a complete maintenance kit
- Suitable for professional installation and maintenance teams
- Supports repeated panel removal and refitting

---

### Product Benefits

- Provides everything required for routine maintenance of Standard Profile installations
- Minimises downtime by allowing quick replacement of damaged clips
- Includes genuine Fastmount tools for professional servicing and repairs
- Ideal for keeping service engineers equipped on-site or on-board
- Maintains the integrity of concealed panel installations
- Reduces the need for complete panel system replacement
- Compact kit for convenient storage and transport
- Supports long-term performance of Fastmount fixing systems

---

## Technical Characteristics

- Product Type: Service Kit
- Model: CT-O6S
- Brand: Fastmount
- Compatible System: Fastmount Standard Profile Range
- Kit Contents:
  - 14 × PC-M1B Clips
  - 4 × PC-M2H Clips
  - 4 × PC-SM2 Clips
  - 4 × PC-SM2H Clips
  - 1 × CT-10 Installation Tool
  - 1 × CT-O5 Panel Removal Tool
- Application: Maintenance and Servicing of Concealed Panel Systems

---

## Applications

The **Fastmount Service Kit** is ideal for **marine interiors, commercial fit-outs, transport applications, hospitality projects, retail installations, exhibition displays, architectural wall and ceiling systems and modular panel installations**. Designed specifically for the **Fastmount Standard Profile concealed fixing range**, it provides maintenance engineers and installers with the essential components and tools needed to keep panel systems operating efficiently throughout their service life.
