Fastmount Standard Range Centre Point Insert - Plastic with Stainless Steel Tip

Variant code: CP-01ST

Fastmount Standard Profile Centre Point Insert is a precision alignment tool designed to ensure accurate positioning of **Fastmount Standard Profile concealed panel clips** during installation. Manufactured from durable **red plastic** with a hardened **stainless steel tip**, the centre point transfers an exact location from the frame to the panel, ensuring perfect clip alignment for fast, professional installations. It is an essential accessory for achieving consistent results with the Fastmount Standard Profile system.

The stainless steel tip creates a precise transfer mark by locating in a **10mm blind hole drilled with the Fastmount CT-09 drill** or by fitting directly into compatible female clips including **PC-F1A, PC-SF1, PC-RF1 and PC-AF1**. This enables installers to accurately align mating clips, reducing installation errors and ensuring reliable panel engagement. The durable plastic body is lightweight and designed for repeated professional use across a wide range of concealed panel applications.

As part of the award-winning Fastmount installation system, the Standard Profile Centre Point Insert helps installers create perfectly aligned concealed fixing systems where panels can be removed and refitted repeatedly in any sequence without damaging the clips or surrounding structure.

Product Features

- Genuine Fastmount Standard Profile Centre Point Insert
- Durable red plastic body
- Hardened stainless steel marking tip
- Provides accurate panel-to-frame alignment
- Fits 10mm blind holes drilled using the Fastmount CT-09 drill
- Compatible with PC-F1A, PC-SF1, PC-RF1 and PC-AF1 female clips
- Produces precise transfer marks for clip positioning

- Designed for repeated professional use

Product Benefits

- **Ensures precise alignment between panels and mounting frames**
- **Stainless steel tip provides accurate transfer marking for reliable clip positioning**
- **Reduces installation errors and improves fitting accuracy**
- Speeds up panel installation by simplifying clip alignment
- Compatible with multiple Fastmount Standard Profile clips
- Lightweight, durable construction for long service life
- Supports professional concealed panel installations
- Ideal for high-volume commercial fitting projects

Technical Characteristics

- Product Type: Centre Point Insert
- Brand: Fastmount
- Body Material: Plastic
- Tip Material: Stainless Steel
- Body Colour: Red
- Compatible System: Fastmount Standard Profile
- Fits: 10mm Blind Hole Drilled with CT-09
- Compatible Clips:
  - PC-F1A
  - PC-SF1
  - PC-RF1
  - PC-AF1
- Application: Panel and Frame Alignment for Concealed Clip Installation

Applications

The **Fastmount Standard Profile Centre Point Insert** is ideal for **architectural wall and ceiling panels, marine interiors, commercial fit-outs, transport interiors, exhibition displays, retail installations and modular panel systems**. Designed for use with the **Fastmount Standard Profile concealed fixing system**, it enables precise alignment of panels and frames, ensuring accurate clip positioning and dependable long-term panel performance.
