

Fastmount Standard Surface Mount Screw Fix Clip – Female

Variant code: PC-SF1

The surface mount female is an extension of the Fastmount system specifically for use where a cavity is required or where installers prefer a screw-fixed mounting. Use with clips designed for self tapping, adhesive fix, high shear strength and variable gap requirements

BENEFITS

- Several mounting options
- Screw fixed to support frame
- Installation requires no special tools
- Works with Standard range Fastmount clips
- Allows for flexing and expansion of panel and support frame

APPLICATIONS

- Mounting onto aluminium frames
- Mounting onto fire rated cabins
- Mounting panels where a cavity between panel and frame is required
- PC-SF1 can be used on panel or support frame side

The Fastmount® multi-award winning system has revolutionized the mounting of panels. Panels can easily be removed and refitted in any sequence time after time
