Fastmount Step Drill - Tungsten Tip

Variant code: CT-07

Fastmount Step Drill - Tungsten Tip is a **precision drilling tool** specifically designed for the installation of **Fastmount® Standard Profile PC-F1A panel clips**. Featuring a durable **tungsten carbide tip** and a **16.8mm step drill diameter**, it accurately drills the required **10mm hole in the mounting frame**, ensuring precise and consistent installation of Fastmount panel mounting systems.

Manufactured for professional installers, the tungsten tip delivers outstanding durability and cutting performance, making it suitable for repeated use in demanding workshop and on-site applications. The stepped drill profile produces accurate hole dimensions, helping to ensure the correct fit and alignment of Fastmount clips while reducing installation time and improving overall finish quality.

Designed to complement the **Fastmount® multi-award-winning concealed panel mounting system**, this specialist drill supports the installation of panels that can be removed and refitted repeatedly in any sequence without damaging the mounting system. It is an essential installation tool for achieving professional, reliable results across a wide range of panel mounting applications.

Ideal for furniture manufacturing, marine interiors, commercial fit-outs and architectural joinery, the Fastmount Step Drill provides accurate, efficient and repeatable drilling for Fastmount clip installations.

Product Features

- **Tungsten carbide tipped step drill**
- Designed for **Fastmount® Standard Profile PC-F1A clips**
- **16.8mm step drill diameter**
- Drills the required **10mm mounting hole** in the frame
- Precision engineered for accurate hole sizing
- Durable construction for long service life
- Suitable for repeated professional use
- Supports Fastmount concealed panel installations

Product Benefits

- **Provides accurate drilling for Fastmount clip installation**
- **Ensures correct fit and alignment of PC-F1A clips**
- **Reduces installation time and improves consistency**
- Long-lasting tungsten tip offers excellent wear resistance
- Helps achieve professional concealed panel mounting
- Suitable for repeated installation and maintenance work

Technical Characteristics

- **Product Type:** Step Drill
- **Brand:** Fastmount
- **Tip Material:** Tungsten Carbide
- **Drill Diameter:** 16.8mm
- **Hole Size Produced:** 10mm Frame Hole
- **Compatible Clip:** Fastmount® PC-F1A Standard Profile Clip
- **Application:** Fastmount Concealed Panel Installation
- **Installation Guidance:** Refer to Fastmount installation guides

Applications

Fastmount Step Drill - Tungsten Tip is ideal for **cabinet makers, shopfitters, joiners, marine installers, exhibition contractors, interior fit-out specialists and architectural panel installers** using the **Fastmount® concealed panel mounting system**. Designed for installing **PC-F1A Standard Profile clips**, it delivers accurate, repeatable drilling to ensure secure panel mounting while supporting Fastmount's innovative system that allows panels to be easily removed and refitted time after time.
