

Fastmount Thread Tap – For PC-F1A

Variant code: CT-15

Fastmount Thread Tap (CT-15) is a precision installation tool designed for creating threaded mounting holes for the **Fastmount® Standard Profile PC-F1A clip**. Specifically developed for use in **fibreglass, aluminium and similar materials**, this professional tap produces accurate threads that ensure a secure and reliable installation of PC-F1A clips in demanding applications.

Designed for use after preparing the mounting hole, the CT-15 is compatible with holes drilled using the **Fastmount® CT-13A Step Drill** or a **10mm hole produced with the CT-07 Step Drill** before tapping. The precision-machined tool creates clean, consistent threads that improve clip engagement and installation accuracy while helping maintain the integrity of the surrounding material.

The Fastmount® multi-award-winning concealed panel mounting system allows panels to be removed and refitted repeatedly in any sequence without damaging the fixing system, making it the preferred solution for marine, transport, architectural and commercial panel installations.

Product Features

- **Thread tap for Fastmount® PC-F1A Standard Profile clip**
- Designed for creating threaded mounting holes
- Suitable for:
 - Fibreglass
 - Aluminium
 - Similar materials
- Compatible with holes prepared using:
 - CT-13A Step Drill
 - CT-07 Step Drill (10mm hole)
- Precision-machined for accurate thread cutting
- Genuine Fastmount® installation tool
- Refer to Fastmount installation guides for correct use

Product Benefits

- Produces clean and accurate threads
- Ensures secure installation of PC-F1A

clips

- Improves installation consistency
- Reduces the risk of thread damage
- Suitable for repeated professional use

Technical Characteristics

- **Product Type:** Thread Tap
- **Brand:** Fastmount
- **Model:** CT-15
- **Compatible Clip:** Fastmount® PC-F1A Standard Profile
- **Compatible Materials:** Fibreglass, Aluminium and Similar Materials
- **Compatible Tools:** CT-13A Step Drill, CT-07 Step Drill
- **Application:** Thread Cutting for Concealed Panel Installation

Applications

Ideal for **marine manufacturers, composite fabricators, cabinet makers, shopfitters, architectural joiners, exhibition contractors and interior fit-out specialists** installing **Fastmount® Standard Profile concealed panel systems**. The CT-15 Thread Tap creates precise threaded mounting holes for **PC-F1A clips**, ensuring secure, repeatable installations while supporting the reliable removable panel functionality of the Fastmount® system.
