

Fastmount Standard Clip Vario Self Tapping Extra Heavy Duty Clip – 15kg – Male

Variant code: PC-VMX

Fastmount Standard Vario Self-Tapping Extra Heavy Duty Male Clip (PC-VMX) is a high-performance concealed mounting clip engineered for demanding removable panel applications. Featuring a **15kg pull-out load**, **variable gap adjustment** and **high shear strength**, it provides exceptional retention for larger and heavier panels while maintaining the clean, concealed appearance of the Fastmount® Standard Profile mounting system.

Designed for quick installation, the PC-VMX features a **self-tapping male design** that fixes directly into suitable substrates without requiring pre-threading. Manufactured from durable glass-reinforced engineering polymer, it offers excellent resistance to vibration, wear and repeated use. The variable gap design helps compensate for installation tolerances, ensuring consistent clip engagement and accurate panel alignment. Designed for use with compatible **Fastmount® Standard Profile female clips**, it allows panels to be repeatedly removed and refitted without damaging the concealed fixing system.

As part of the **Fastmount® multi-award-winning concealed panel mounting system**, the PC-VMX provides a secure, concealed and removable fixing solution for heavy-duty architectural, marine, transport and commercial interior applications.

Product Features

- Standard Profile Vario self-tapping male clip
- **15kg pull-out load**
- Variable gap design for improved installation flexibility
- High shear strength
- Compatible with Fastmount® Standard Profile female clips
- Self-tapping installation
- Durable glass-reinforced engineering polymer construction
- Concealed fixing system
- Suitable for repeated panel removal and reinstallation

- Genuine Fastmount® Standard Profile clip

Product Benefits

- Securely supports larger and heavier removable panels
- Variable gap compensates for installation tolerances for improved alignment
- High shear strength delivers reliable performance in demanding environments
- Enables fast panel removal for maintenance and servicing
- Self-tapping design speeds up installation
- Provides a clean, concealed and professional panel finish

Technical Characteristics

- **Product Type:** Extra Heavy-Duty Male Concealed Mounting Clip
- **Brand:** Fastmount
- **Model:** PC-VMX
- **System Compatibility:** Fastmount® Standard Profile Range
- **Clip Type:** Vario Self-Tapping Male
- **Pull-Out Load:** 15kg
- **Design:** Variable Gap with High Shear Strength
- **Material:** Glass-Reinforced Engineering Polymer
- **Installation:** Self-Tapping
- **Application:** Heavy-Duty Removable Panel Mounting

Applications

The **Fastmount PC-VMX Standard Vario Self-Tapping Extra Heavy Duty Male Clip** is ideal for **architectural wall panels, ceiling systems, marine interiors, transport vehicles, commercial fit-outs, exhibition displays, industrial enclosures, retail installations and bespoke joinery**. Designed for use with compatible **Fastmount® Standard Profile female clips**, it provides a secure, concealed and removable fixing solution that delivers exceptional holding strength, precise panel alignment and convenient access for maintenance or servicing while maintaining a clean, professional appearance.

Property	Value
Finish	Black
Width (mm)	20
Length (mm)	24.8
Height (mm)	20
Material	Glass-Reinforced Plastic (PA)
Min. Panel Thickness (mm)	15
Weight (g)	2.8
Installation Type	Self tapping
Pull-out Force (kg)	15
