Fastmount Very Low Profile Centre Point

Variant code: VL-CP3

Fastmount Very Low Profile Centre Point (VL-CP3) is a precision alignment tool designed for use with the **Fastmount® Very Low Profile Range**, ensuring accurate positioning of panel clips during installation. Featuring a **stainless steel marking tip**, it precisely transfers the fixing location onto the reverse side of the panel, allowing fast, accurate drilling and perfect clip alignment for professional concealed panel installations.

Manufactured from durable engineering-grade materials, the VL-CP3 is built for repeated workshop and on-site use. Its very low profile design supports the Fastmount® system's discreet concealed fixing philosophy, helping installers achieve flush panel installations with minimal visible hardware. Easy to use and requiring no specialist equipment, it significantly reduces installation time while improving fitting accuracy.

As part of the **Fastmount® multi-award-winning concealed panel mounting system**, the VL-CP3 helps deliver consistent alignment while supporting the system's ability to remove and refit panels repeatedly without compromising the concealed fixing.

Product Features

- Centre point alignment tool for the **Fastmount® Very Low Profile Range**
- Precision **stainless steel marking tip**
- Accurately marks hole centres for precise clip alignment
- Very low profile installation system
- Suitable for repeated workshop and on-site use
- Durable engineering-grade construction
- Simple, fast operation with no specialist tools required
- Improves installation accuracy and efficiency
- Genuine Fastmount® installation tool

Product Benefits

- Produces accurate panel alignment every time
- Reduces installation errors and rework

- Speeds up panel preparation and fitting
- Supports clean, near-invisible concealed panel installations
- Enhances the professional finish of completed projects
- Long-lasting construction for reliable repeated use

Technical Characteristics

- **Product Type:** Centre Point Alignment Tool
- **Brand:** Fastmount
- **Model:** VL-CP3
- **Range:** Fastmount® Very Low Profile
- **Tip Material:** Stainless Steel
- **Function:** Hole Centre Marking and Clip Alignment
- **Construction:** Engineering-Grade Polymer with Stainless Steel Tip
- **Application:** Concealed Panel Installation

Applications

The **Fastmount VL-CP3 Very Low Profile Centre Point** is ideal for **architectural wall panels, cabinetry, furniture manufacturing, shopfitting, signage, marine interiors, RV and caravan interiors, exhibition displays and bespoke joinery**. Designed for use with the **Fastmount® Very Low Profile Range**, it enables precise panel marking for accurate clip positioning, ensuring clean, professional concealed installations with quick panel removal and refitting when required.
