

Fastmount Very Low Profile Fire Rated Clip – Female

Variant code: VL-F3FR

Introducing the Fastmount Very Low Profile Fire Rated Clip – Female

This fire-rated clip is designed for secure and discreet mounting of various panels and fixtures in commercial and residential applications. Its extremely low profile minimises visual impact while maintaining exceptional holding power.

Key Features:

Fire-rated: Meets stringent fire safety standards for peace of mind.

Low profile: Ideal for applications where aesthetics are crucial.

Strong and durable: Provides reliable support for a wide range of panels.

Easy to install: Quick and efficient installation saves time and labour.

Versatile: Suitable for a variety of materials and applications.

Applications:

Architectural panels: Securely mount metal, wood, and composite panels in interior and exterior applications.

Signage: Install durable and long-lasting signage systems.

Cabinets and furniture: Create strong and stylish cabinetry and furniture.

Machinery and equipment: Mount components securely and safely.

Benefits:

Enhanced safety: Meets fire safety codes and regulations.

Improved aesthetics: Minimal visual intrusion for a clean and professional look.

Increased efficiency: Fast and easy installation reduces project timelines.

Enhanced durability: Provides long-lasting support for your applications.
