

Fastmount Very Low Profile Fire Rated Clip – Male

Variant code: VL-M3FR

Fastmount Very Low Profile Fire Rated Clip – Male

This fire-rated Fastmount clip offers exceptional low profile installation for secure and discreet attachment of various materials to walls and ceilings. Designed for use in fire-rated construction, this male clip provides a robust and reliable solution for a wide range of applications.

Key Features:

Fire Rated: Meets stringent fire safety standards for use in critical applications.

Very Low Profile: Minimises protrusion from the surface for a sleek and unobtrusive appearance.

Secure Attachment: Provides a strong and reliable connection between materials.

Versatile Applications: Suitable for attaching various materials such as panels, signs, and fixtures.

Easy Installation: Quick and simple to install, saving time and labour costs.

Ideal for:

Fire-rated walls and ceilings: Hospitals, schools, offices, and other public spaces.

Applications requiring discreet attachment: Architectural installations, museum exhibits, and retail displays.

Secure mounting of lightweight panels and fixtures.

Benefits:

Enhanced safety: Meets fire safety codes and regulations.

Improved aesthetics: Low profile design enhances visual appeal.

Increased efficiency: Quick and easy installation saves time and resources.

Versatility: Suitable for a wide range of applications.
