

Hawa Porta 100 HMD/HMT Pocket Acoustics – Set for 1 Door – Without Running Track

Variant code: 30430

The all-rounder among sliding fittings can now do even more: the Hawa Porta Acoustics attenuates sound transmission by up to 39 dB. And a clever all-round seal protects against drafts, odors and incident light. Of course, it still features its signature strengths.

Set includes

- 2x Runner Hawa Porta 100, ball bearings, rollers plastic, white
- 1x Stopper, Hawa Porta 60 Acoustics, SoftStop
- 1x Stopper Hawa Porta 60/100, with retention spring, plastic, grey
- 1x Adapter to SoftStop Porta Acoustics
- 1x Pan head screw M3x8 mm
- 1x Slotted hexagon head screw M8x36 mm, steel, zinc plated
- 1x Hexagon socket head cap screw M8x35 mm, steel, zinc coated
- 1x Cover cap, plastic, grey
- 2x Running gear holder Hawa Porta 60/100 HMT, plastic, anthracite
- 2x Housing Hawa Porta 60/100 HM, steel, zinc plated, niche
- 2x Spacer adapter
- Cover cap set, 4-piece set
- 8x Countersunk head chipboard screw D4x50 mm (5/32"x1 31/32"), steel

As well as the set above you will also need to select the correct vertical and horizontal seals and top track from the selection below to suit your requirements.
