

## Flush/Slide Door Bolt – 12" – Pewter

**Variant code: 33627**

We have an extensive range of door, window, french and flush bolts, ranging from 4" to 12".

- This flush bolt features a strong spring mechanism and can be used on sliding/folding door systems.
- Usually used to secure the slave door, it requires rebating into the surface or edge of your door.
- Maximum depth of cut out: 18mm.
- Supplied with matching SS wood screws.

Our black finish is a popular choice in traditional settings, it has a subtle sheen and offers a bold contrast on both stained and painted timber alike. It is baked in a high-temperature oven giving it durable corrosion resistant properties.

Property	Value
Finish	Pewter Patina
Range	Flush
Overall Length (mm)	306

Gallery

Technical drawing of a door bolt assembly. The drawing includes three views: a side view, a top view, and a detail view of the bolt head. Dimensions are provided in millimeters: overall length 306, top view width 20, side view height 20, detail view width 19, detail view height 35, and a hole diameter of 9.

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
