

Flush/Slide Door Bolt – 12" – Black

Variant code: 33392

We have an extensive range of door, window, french and flush bolts, ranging from 4" to 12".

This flush bolt features a strong spring mechanism and can be used on sliding/folding door systems.

- Usually used to secure the slave door, it requires rebating into the surface or edge of your door.
- Maximum depth of cut out: 18mm.
- Supplied with matching SS wood screws.

Our pewter patina finish is forged from a durable base of steel and is a fine example of how our unique manufacturing techniques add further detail to the natural charm of metals. The process by which the contrasting textures of this finish are created results in a rich appearance that sits well in characterful, rustic homes but also offers a contemporary alternative in more modern settings.

Property	Value
Finish	Black
Width (mm)	21
Range	Flush
Overall Length (mm)	306

Gallery

Technical drawing of a 12 inch Flash/Slide Door Bolt. The drawing includes three views: a top view showing a length of 306mm and a width of 20mm; a side view showing a height of 30mm and a width of 19mm; and a detail view of the bolt head showing a diameter of 20mm and a height of 35mm. The bolt has a U-shaped head and a threaded shaft.

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
