Folding Pocket Door - Upper Rail - 1820mm

Variant code: FD30-HBR1820SIL

Folding Pocket Door Upper Rail is a precision-engineered **top rail** designed for use with the **Sugatsune FD30 Folding Pocket Door System**. Manufactured from **high-quality aluminium** with a durable **silver anodised finish**, this **1820mm rail** provides smooth, reliable guidance for folding pocket doors while delivering excellent corrosion resistance and long-lasting performance.

Specifically designed to support the upper running mechanism of the FD30 system, the rail ensures accurate door alignment and effortless operation. Its lightweight yet robust aluminium construction offers outstanding rigidity without adding unnecessary weight, making it suitable for both residential and commercial interior applications.

Finished in an attractive silver anodised coating, the FD30-TRH1820SIL combines durability with a modern appearance, providing a dependable solution for premium folding pocket door installations.

Product Features

- Upper rail for the **Sugatsune FD30 Folding Pocket Door System**
- **1820mm length**
- Manufactured from high-quality aluminium
- **Silver anodised finish**
- Provides smooth and accurate door guidance
- Lightweight yet rigid construction
- Corrosion-resistant for long service life
- Precision-engineered for reliable performance
- Genuine Sugatsune pocket door system component

Product Benefits

- Ensures smooth and consistent folding door operation
- Maintains accurate door alignment
- Lightweight aluminium construction simplifies handling and installation
- Silver anodised finish resists wear and corrosion

- Provides reliable long-term performance
- Ideal for professional pocket door installations

Technical Characteristics

- **Product Type:** Upper Rail
- **Brand:** Sugatsune
- **Model:** FD30-TRH1820SIL
- **System Compatibility:** FD30 Folding Pocket Door System
- **Length:** 1820mm
- **Material:** Aluminium
- **Finish:** Silver Anodised
- **Installation Position:** Top Rail
- **Application:** Folding Pocket Door System

Applications

The **Sugatsune FD30-TRH1820SIL Upper Rail** is ideal for **folding pocket doors in residential homes, apartments, hotels, offices, retail environments, hospitality projects, wardrobes, storage areas and bespoke joinery**. Designed as a genuine component of the **Sugatsune FD30 Folding Pocket Door System**, it provides smooth, reliable door guidance and long-lasting performance for high-quality interior door installations.
