Forend & Strike Plate Pack to Suit Tubular Latch - Black

Variant code: 2415.FS.71.BK

The **Forend & Strike Plate Pack for Heavy Duty Tubular Latch** is a genuine replacement accessory set designed to restore or customise compatible heavy-duty tubular latches. Supplied as a complete matching pack, it includes both the **forend plate** and **strike plate**, providing a coordinated finish while maintaining the smooth operation and professional appearance of your door hardware. Ideal for replacement, refurbishment or colour-matching projects, this pack is suitable for a wide range of commercial and residential installations.

Manufactured from durable materials for long-lasting performance, the pack is designed to fit compatible heavy-duty tubular latches and provides a neat, secure installation. Available in a selection of attractive architectural finishes, it allows installers to match the latch hardware with existing lever handles, hinges and door furniture for a consistent appearance throughout the building. The robust construction ensures excellent resistance to everyday wear in high-traffic environments.

Perfect for maintenance teams, contractors and professional joiners, the Forend & Strike Plate Pack provides a simple and cost-effective solution for replacing worn or damaged latch furniture without changing the complete latch mechanism.
