

Forged Cabin Hook – 16" – Black

Variant code: 83775

Our range of cabin hooks are ideal for safely holding open doors and window. Most commonly used on external patio or french doors, they can also be used to secure shutters in place or keep cupboard doors closed.

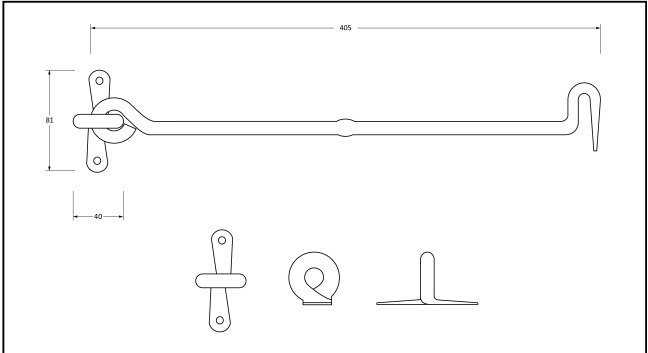

Our cabin hook is hand forged from mild steel using the traditional manufacturing method of an anvil and fire. A perfect design choice for internal or external doors with matching products available.

Available in eight different sizes.

Supplied with matching SS wood screws.

Property	Value
Finish	Black
Depth (mm)	13

Technical drawing of a 15" Forged Cabin Hook. The main drawing shows the hook with dimensions: a total length of 405mm, a mounting bracket width of 61mm, and a mounting hole spacing of 40mm. Below the main drawing are three smaller views: a side view of the mounting bracket, a top view of the hook's circular end, and a side view of the hook's curved end.

Please Note, due to the hand crafted nature of our products all measurements are approximate and should be used as a guide only.
