

Funnel 200mm Diameter – Satin Stainless Steel

Variant code: AE-DH-020-HL

Stainless Steel Funnel is a premium recessed funnel designed to provide a practical and hygienic solution for waste disposal in commercial, healthcare and laboratory environments. Manufactured from high-quality **satin stainless steel** with a generous **200mm diameter**, it offers excellent durability, corrosion resistance and a professional architectural finish. Ideal for integration into worktops, counters and laboratory benches, the funnel provides a neat and efficient waste collection point.

Constructed from corrosion-resistant stainless steel, the funnel is designed to withstand demanding environments while remaining easy to clean and maintain. The smooth satin finish complements modern commercial interiors and supports hygienic operation by minimising dirt traps and allowing quick wipe-down cleaning. Its recessed design integrates seamlessly into work surfaces, maintaining a tidy and uncluttered appearance.

Suitable for a wide range of professional applications, the Sugatsune Funnel combines robust construction with functional design to deliver reliable long-term performance wherever convenient waste disposal or material collection is required.

Product Features

- Premium recessed stainless steel funnel
- 200mm diameter opening
- Manufactured from high-quality stainless steel
- Satin stainless steel finish
- Corrosion-resistant construction
- Smooth hygienic surface for easy cleaning
