Sugatsune Glass Bracket to suit HA3D-23BK - Polished Chrome

Variant code: HA3D-23-GB-CP

Sugatsune Glass Bracket to suit HA3D-23 Concealed Hinge is designed to enable the use of glass doors with compatible HA3D concealed hinge systems, providing a secure interface between the hinge and glass panel. Engineered by Sugatsune, a specialist in precision architectural hardware, this bracket allows **glass door integration** while maintaining the **concealed hinge functionality** and clean external appearance.

Developed specifically to suit the HA3D-23 hinge range, the bracket ensures **secure clamping and stable positioning** of glass panels without compromising alignment. It supports the same **three-way adjustment capability** offered by the hinge system, allowing accurate vertical, lateral and depth positioning for consistent gaps and smooth operation.

The bracket enables glass doors to be installed in applications where a **minimalist and high-end aesthetic** is required, maintaining a concealed hardware appearance while accommodating non-traditional door materials. Available in **Black, Gold and Polished Chrome finishes**, it allows coordination with hinge finishes and surrounding hardware for a cohesive design.

Manufactured from durable materials, the bracket is designed to provide **long-term stability and reliable performance**, even in high-use environments.

Product Features

- Designed for **Sugatsune HA3D-23 concealed hinge systems**
- Enables installation of **glass cabinet doors**
- Provides **secure clamping and fixing of glass panels**
- Maintains **concealed hinge appearance**
- Supports **three-way hinge adjustment compatibility**
- Available in **Black, Gold and Polished Chrome finishes**

Product Benefits

- Allows integration of **glass doors into concealed hinge systems**
- Maintains a **clean, uninterrupted cabinet exterior**
- Supports **precise alignment and consistent reveals**
- Enhances **modern and high-end furniture design**
- Provides **stable and reliable glass panel fixing**
- Enables finish coordination across hardware

Technical Characteristics

- Compatible with **Sugatsune HA3D-23 hinge range**
- Designed for use with **glass door panels**
- Supports hinge-based **three-way adjustment system**
- Requires appropriate installation preparation for glass fixing
- Engineered for consistent alignment and long-term durability
- Suitable for integration into cabinet carcass and door systems

Applications

This glass bracket is suitable for **glass cabinet doors in kitchens, display units, wardrobes and fitted furniture** where concealed hinges are required. It is particularly effective in applications demanding a **minimalist aesthetic**, such as showcase cabinetry, retail displays and contemporary interiors, where both **visual clarity and precise alignment** are essential.

Property	Value
Colour	Polished Chrome
Application	Inset
Max Glass Width (mm)	600
Max Glass Height (mm)	1500
Hinge Type	Bracket
