

Glass Inset Hinge Will Suit 6 – 8mm Glass – Polished Chrome

Variant code: ACH02206CP

Glass Inset Hinge is a premium concealed hinge designed specifically for **6mm to 8mm glass inset doors** on display cabinets and showcases. Engineered for smooth, reliable operation, the hinge combines precision adjustment with elegant styling, making it an ideal choice for retail displays, jewellery cabinets, museums and high-end furniture. Available in **Black, Polished Chrome and 24K Gold Plated** finishes, it provides a coordinated appearance when used with the matching Sugatsune Glass Door Lock.

Designed with installer convenience in mind, the hinge incorporates a **temporary hold function** that allows a single person to position and install the glass door with ease. Once fitted, the hinge offers **±3mm adjustment** by simply turning the adjustment screw, allowing precise door alignment for a professional finish. Manufactured from high-quality materials, it delivers dependable long-term performance while maintaining the clean appearance expected from premium frameless glass cabinetry.

Combining precision engineering with elegant aesthetics, the Sugatsune Glass Inset Hinge provides a secure and attractive solution for inset glass cabinet doors where durability, adjustability and coordinated hardware are essential.

Product Features
