

Handle for Flush Glass Doors – SW126 Stainless Steel Effect

Variant code: KC170.SSE

The **Handle for Flush Glass & Timber Doors** provides a clean and contemporary operating solution for modern flush door installations. Designed for use with **glass and timber doors**, the handle features a convenient **self-adhesive mounting system** that allows installation without requiring glass processing or milling into the timber.

Measuring **200mm in length**, with a width of **26mm** and height of **25mm**, the handle has a slim architectural profile suited to minimalist door designs. Its self-adhesive attachment simplifies installation while helping maintain the clean appearance associated with **flush glass and timber door systems**.

The handle is specifically designed for compatibility with the **TECTUS glass hinge system** and the **Keep Close magnetic closing system**. Specified here in a **Stainless Steel Effect**, it provides a contemporary appearance suited to modern residential and architectural interiors where discreet door hardware is preferred.

Product Features

- Contemporary handle for **flush glass and timber doors**
- Features a convenient **self-adhesive attachment**
- Installation requires **no glass processing**
- Requires **no milling into timber** for handle installation
- Designed for use with the **TECTUS glass hinge system**
- Compatible with the **Keep Close magnetic closing system**
- Overall handle length of **200mm**
- Compact dimensions provide a **clean, minimalist appearance**
- Specified in a contemporary **Stainless Steel Effect**
- Suitable for modern **glass and timber door installations**

Product Benefits

- **Self-adhesive installation provides a straightforward method of fitting the handle without conventional machining**
- **No glass processing or timber milling is required, helping simplify installation and preserve clean door surfaces**
- **Dedicated compatibility with TECTUS glass hinges and Keep Close magnetic closing systems supports integrated flush-door installations**
- **Slim 200mm handle design** complements contemporary and minimalist door schemes
- Suitable for both **glass and timber doors**, providing flexibility across compatible door constructions
- **Stainless Steel Effect** provides a modern appearance suitable for contemporary architectural interiors

Technical Characteristics

- **Product Type:** Flush Door Handle
- **Application:** Glass & Timber Doors
- **Finish:** Stainless Steel Effect
- **Mounting Method:** Self-Adhesive
- **Length:** 200mm
- **Width:** 26mm
- **Height:** 25mm
- **Profile:** 40mm
- **Glass Processing Required:** No
- **Timber Milling Required:** No
- **System Compatibility:** TECTUS Glass Hinge System
- **Closing System Compatibility:** Keep Close Magnetic Closing System

Applications

The **Handle for Flush Glass & Timber Doors** is designed for contemporary flush-door installations where a **minimalist appearance and straightforward self-adhesive fitting** are required. It is suitable for compatible **glass and timber doors** and is specifically designed to complement the **TECTUS glass hinge system and Keep Close magnetic closing system**. With no glass processing or timber milling required for handle installation, it is particularly suited to **modern residential interiors, offices and architectural fit-out projects** using compatible flush-door systems.
