

Hawa Acoustics Horizontal Seal Set M: 970 –1100mm – Right Hand

Variant code: 30440

Premium Soundproofing: Hawa Acoustics Horizontal Seal Set M (970–1100mm) ??

Improve the **acoustic performance** and comfort of your interior spaces with the **Hawa Acoustics Horizontal Seal Set**, meticulously engineered for sliding and pocket door systems. This **size M** seal set is designed to accommodate internal door opening widths from **970 mm to 1100 mm**, making it a versatile and **essential component** for professional **building** and **architectural** projects seeking superior **sound attenuation**.

Key Features & Benefits

- **Superior Soundproofing:** Achieve a tranquil environment. This horizontal seal system significantly reduces noise transmission, contributing to a maximum **sound insulation value** of up to 41 decibels (dB), depending on the overall door and wall construction. Ideal for **offices, conference rooms, bedrooms, and high-end residential** properties.
- **Precision Fit (Size M):** Specifically tailored for door openings of **970–1100 mm (~38–43 inches)**. Ensure a tight, reliable **draft-proof** and **light-blocking** seal along the top and bottom of the door.
- **Complete Seal System:** The set includes **1 upper seal, 1 lower seal**, small parts sets for both top and bottom, and a **pocket door adapter**, simplifying the purchasing and installation process for a comprehensive **acoustics solution**.
- **Versatile Application:** Compatible with both **fully and partially opening doors**, suitable for **wall mounting, ceiling installation**, and, most importantly, seamless integration into **pocket door** and **sliding door hardware** systems.
- **Enhanced Living Comfort:** Beyond noise, this seal effectively prevents the transfer of **drafts, odours**, and unwanted **light incidence**, creating a truly comfortable and private interior.

Invest in the **Hawa Acoustics Horizontal Seal Set M** to deliver a high-quality, **noise-dampening solution** that meets the stringent demands of modern **architectural acoustic** standards.

The new Hawa Acoustics range does not only provide effective sound attenuation, but also keeps odors, drafts and light out. You can therefore flexibly design those retreat zones which are so important using this innovative system extension, even in open architecture concepts.

Seal, Hawa Acoustics medium – 870 –1030mm.
