Hawa Acoustics Horizontal Seal Set S: 850 - 970mm - Left Hand

Variant code: 30439

Hawa Acoustics Horizontal Seal Set - Extra Small (XS) | Precision Sound Attenuation for Sliding Doors (750-850mm) ??

Elevate the comfort and privacy of your interior spaces with the **Hawa Acoustics Horizontal Seal Set (XS)**. Engineered by the industry-leading **architectural hardware** specialists at Hawa, this extra-small set is a vital component for achieving superior **sound insulation** in sliding door systems. Specifically designed for **door widths** between **750mm and 850mm**, this seal kit ensures a tight, effective barrier against unwanted noise, drafts, odors, and light, transforming open-plan areas into quiet, private retreats.

Key Features and Benefits

- **Superior Acoustic Performance:** Achieve significant **sound attenuation** (up to 35-41 dB, depending on the overall door system) by effectively sealing the horizontal gaps at the top and bottom of your **sliding wood door**. This is an essential upgrade for **commercial** offices, **residential** bedrooms, and high-spec **interior design** projects.

- **Precision Retractable Seals:** The concealed, **automatic drop seal** mechanisms are mortised into the door panel, activating only when the door is closed. This feature maintains a clean aesthetic while protecting the seals and ensuring smooth, effortless door operation.

- **Optimal Fit (750-850mm):** The **Extra Small (XS) size** is perfectly engineered to accommodate door widths ranging from **750 mm to 850 mm**, providing a secure and precise seal. Ideal for smaller door openings and compact spaces.

- **Multifunctional Barrier:** Beyond **noise reduction**, the seals also prevent the ingress of **drafts, dust, and odors**,

contributing to greater **energy efficiency** and overall **living comfort**.

- **Compatibility:** Designed for seamless integration with the **Hawa Junior Acoustics** and **Hawa Porta Acoustics** sliding door systems (e.g., Junior 100 B Acoustics, Porta 60/100 HMD/HMT series), ensuring reliable performance as part of a complete, **high-quality hardware** solution.

Technical Specifications

Detail	Specification
Product	Hawa Acoustics Horizontal Seal Set
Size	Extra Small (XS)
Door Width Range	**750 - 850mm**
Application	**Horizontal Seals** (Top and Bottom) for Sliding Doors
Installation	Concealed, Mortised (Recessed)
Function	Automatic Retractable Drop Seals
Primary Use	**Acoustic Sealing**, Draft and Odor Prevention
Compatibility	Hawa Junior/Porta Acoustics Sliding Systems

Invest in the **Hawa Acoustics Horizontal Seal Set (XS)** to ensure your **sliding door system** delivers both **aesthetic design** and exceptional **acoustic performance**. It's the **precision engineering solution** for modern, sound-conscious spaces.

The new Hawa Acoustics range does not only provide effective sound attenuation, but also keeps odors, drafts and light out. You can therefore flexibly design those retreat zones which are so important using this innovative system extension, even in open architecture concepts.

Seal, Hawa Acoustics small - 750 - 900mm.

Handed - ensure you order the correct one for your requirements.
