Variant code: 055.3171.250

Unlock Smooth Sliding Doors with the Hawa Clipo 26/36 H IS Guide Track for Glue Fixing

Experience effortless and reliable sliding door operation with the **premium Hawa Clipo 26/36 H IS Guide Track**. Specifically designed for **glue fixing**, this **2500 mm long guide track** in a sleek **grey plastic finish** provides a durable and aesthetically pleasing solution for your **interior sliding door systems**.

Engineered with Hawa's renowned Swiss precision, this **high-quality guide track** ensures **smooth and quiet gliding** of your doors. The **Clipo 26/36 H IS** model is expertly crafted to accommodate door weights within the **26 kg to 36 kg range**, making it ideal for a variety of **light to medium-weight interior doors**.

The **innovative design** of this **plastic guide profile** simplifies installation with its **easy glue fixing mechanism**, eliminating the need for drilling and preserving the integrity of your surfaces. This **non-drill installation** is particularly beneficial for glass doors or situations where a clean, screw-free aesthetic is desired.

Key Features and Benefits:

- **Smooth and Quiet Operation:** Enjoy the seamless and near-silent movement of your sliding doors thanks to the precision engineering of the guide track.
- **Designed for Glue Fixing:** Offers a convenient and damage-free installation method, perfect for various door types and surfaces.
- **Durable Grey Plastic Construction:** Provides a robust and long-lasting solution with a modern and discreet grey finish that complements any interior design.
- **Optimal Length (2500 mm):** Suitable for standard door widths, providing ample guidance for smooth travel.
- **Weight Capacity (26–36 kg):** Ideal for

light to medium-weight interior sliding doors in residential and commercial settings.

- **Hawa Quality:** Benefit from the trusted quality and reliability of Hawa, a leading manufacturer of sliding door hardware.
- **Easy Installation:** The glue fixing design simplifies the mounting process, saving time and effort.
- **Clean and Minimalist Aesthetic:** The grey plastic profile offers a subtle and unobtrusive look.
- **Versatile Application:** Suitable for a wide range of interior sliding door applications, including room dividers, closet doors, and more.
- **Long-Lasting Performance:** Built to withstand daily use, ensuring years of reliable operation.

Perfect for:

- **Interior designers** seeking high-quality and aesthetically pleasing sliding door solutions.
- **Homeowners** looking for smooth, quiet, and easy-to-install sliding door hardware.
- **Tradespeople** requiring reliable and efficient guide tracks for their projects.
- **DIY enthusiasts** wanting a straightforward solution for creating sliding doors.
