Hawa Concepta 40 - Sliding Door Hardware - Set for 1 - 1851mm-2500mm

Variant code: 25880

Master of Space: The Hawa Concepta 40

The **Hawa Concepta 40** is a revolutionary pivot and lateral sliding door hardware system designed to transform your living and working spaces. Say goodbye to protruding doors and hello to clean, minimalist design. Perfect for high-end cabinetry, walk-in closets, kitchen appliance concealment, or discreet home offices, this system allows a single door to smoothly pivot open and then effortlessly slide into a pocket alongside the cabinet body or wall recess.

Key Features & Benefits

- **Exceptional Space Utilisation:** This innovative **pivot/slide-in** technology allows the door to completely disappear into the cabinet or wall niche, creating **unobstructed access** and a perfectly **flush front** when closed. Maximise every square inch of your room.
- **Precision Engineering for Heavy Doors:** The Concepta 40 is built with a unique **scissor technology** and a **smooth-running Hawa trolley** to accommodate large, heavy wooden doors.
    - **Max. Door Weight:** 40 kg (88 lbs).
    - **Door Height:** 1851 mm to 2500 mm.
    - **Door Width:** 300 mm to 900 mm.
    - **Door Thickness:** 19 mm to 50 mm.
- **Superior User Comfort:** Experience seamless, quiet operation thanks to integrated **soft closing and soft stopper mechanisms** in the end positions. The door is automatically pulled into its pocket for a perfect close every time.
- **Obstruction-Free Design:** The clever design **omits the need for a bottom guide channel**, ensuring a continuous floor and flexible room use with absolutely no trip hazards.

- **Easy, Front-Accessible Adjustment:** The system is engineered for **straightforward installation** and **simple adjustment**, with all necessary fine-tuning accessible from the front of the cabinet. No difficult access panels required.
- **Versatile Application:** The set is ideal for a broad range of applications, including room-high designs, concealed storage in the living room (e.g., hiding a TV or utility area), and creating elegant, flush furniture fronts. It can be used for both **left and right-hand** applications.

Included in Your Set (for 1 Door)

This comprehensive set includes all the essential components for a single pivot/slide-in door installation within the specified height range:

- Upright with 2 play-free guides
- 4 Concealed Hinges (spring-loaded)
- 1 Guide Track
- 1 Running Track
- Door pull-in mechanism with end position soft closing system
- Spacer profile, cover caps, and necessary screws/fittings.

Note: Connecting profiles (if required for your specific cabinet design) and door handles are typically ordered separately.
