

## Hawa Concepta III V2 15 Pull Slide-In Set – Right Hand

Variant code: 53525

The **Hawa Concepta III V2 15 Pull Slide-In Set** is a dedicated system component for **pivot and slide-in furniture doors**. This **right-hand version** features the **Pull function** and is designed for furniture door applications operated using a handle.

Designed as part of the **Concepta III V2 15** system, the slide-in set provides the components required for the door to move laterally into the furniture pocket after opening. This allows the door to be positioned neatly out of the working area when used with the required complementary Concepta III V2 components.

The set includes the **right-hand slide-in unit**, a **zinc-plated steel end-stop bracket**, a **soft-closing mechanism with end stop** and a set of **black plastic cover caps**. Together, these components provide the dedicated slide-in assembly for a right-hand Concepta III V2 15 Pull installation.

---

### Product Features

- **Right-hand slide-in set** for the Concepta III V2 15 system
  - Designed specifically for the **Pull function**
  - Suitable for **pivot and slide-in furniture doors with a handle**
  - Allows the door to move laterally into the **furniture pocket** as part of the complete system
  - Includes a dedicated **right-hand slide-in unit**
  - Includes an **end-stop bracket**
  - End-stop bracket manufactured from **zinc-plated steel**
  - Includes a **soft-closing mechanism with end stop**
  - Includes a set of **black plastic cover caps**
  - Designed as a component of the **Concepta III V2 15 pivot/slide-in door system**
-

## Product Benefits

- **Dedicated Pull configuration is designed for furniture doors operated using a handle**
- **Slide-in operation allows the door to move laterally into the furniture pocket as part of the complete Concepta system**
- **Soft-closing mechanism provides controlled movement at the end position**
- **Right-hand configuration provides the appropriate slide-in assembly for a right-hand installation**
- **Supplied with the dedicated end-stop and cover-cap components for the slide-in assembly**
- **Forms part of a system designed for pivoting and laterally retracting furniture doors**

## Technical Characteristics

- **Product Type:** Pivot & Slide-In Door Slide-In Set
- **System:** Concepta III V2 15
- **Function:** Pull
- **Handing:** Right Hand
- **Door Operation:** With Handle
- **Slide-In Unit:** Right Hand
- **End-Stop Bracket Material:** Steel
- **End-Stop Bracket Finish:** Zinc-Plated
- **Closing Mechanism:** Soft-Closing Mechanism with End Stop
- **Cover Caps:** Plastic, Black

## Applications

The **Hawa Concepta III V2 15 Pull Slide-In Set – Right Hand** is designed for **right-hand pivot and slide-in furniture door installations** using the Concepta III V2 15 system. Its **Pull function** is intended for doors operated with a handle, allowing the door to pivot open and move laterally into the furniture pocket when combined with the required complementary **Concepta III V2 15 system components**.
