

Hawa Concepta III V2 15 Pull Slide-In Set – Left Hand

Variant code: 53524

The **Hawa Concepta III V2 15 Pull Slide-In Set** is a dedicated system component for **pivot and slide-in furniture doors**. This **left-hand version** is designed for the **Pull configuration**, providing the slide-in components required for applications where the door is operated using a handle.

Designed as part of the **Concepta III V2 15** system, the slide-in set works with the corresponding system components to allow the door to pivot and move laterally into the furniture pocket. The Pull configuration is specifically intended for **pivot/slide-in doors with a handle**, providing a practical solution for furniture where the door needs to be moved out of the working area when opened.

The set includes the **left-hand slide-in unit**, a **Pull end-stop bracket**, a **soft-closing mechanism with end stop** and a **black plastic cover-cap set**. These components form the dedicated slide-in assembly for a left-hand Concepta III V2 15 Pull installation.

Product Features

- **Left-hand slide-in set** for the Concepta III V2 15 system
 - Designed specifically for the **Pull configuration**
 - Suitable for **pivot and slide-in furniture doors with a handle**
 - Allows the door to move laterally into the **furniture pocket** as part of the complete system
 - Includes a dedicated **left-hand slide-in unit**
 - Includes a **Pull end-stop bracket**
 - End-stop bracket manufactured from **zinc-plated steel**
 - Includes a **soft-closing mechanism with end stop**
 - Includes a **black plastic cover-cap set**
 - Designed as a component of the **Concepta III V2 15 pivot/slide-in door system**
-

Product Benefits

- **Dedicated Pull configuration is designed specifically for furniture doors operated using a handle**
- **Slide-in mechanism enables the door to move laterally into the furniture pocket as part of the complete Concepta system**
- **Integrated soft-closing mechanism provides controlled closing within the slide-in assembly**
- **Left-hand configuration provides the correct slide-in components for a left-hand installation**
- **Supplied with the dedicated end-stop and cover components required for the slide-in assembly**
- **Forms part of the Concepta III system for creating pivoting and laterally retracting furniture doors**

Technical Characteristics

- **Product Type:** Pivot & Slide-In Door Slide-In Set
- **System:** Concepta III V2 15
- **Function:** Pull
- **Handing:** Left Hand
- **Door Operation:** With Handle
- **Slide-In Unit:** Left Hand
- **End-Stop:** Pull End-Stop Bracket
- **End-Stop Bracket Material:** Steel
- **End-Stop Bracket Finish:** Zinc-Plated
- **Closing Mechanism:** Soft-Closing Mechanism with End Stop
- **Cover Caps:** Plastic, Black

Applications

The **Hawa Concepta III V2 15 Pull Slide-In Set – Left Hand** is designed for **left-hand pivot and slide-in furniture door installations** using the Concepta III V2 15 system. The **Pull configuration** is intended for doors operated with a handle, allowing the door to pivot open and then move laterally into the furniture pocket when used with the required complementary Concepta III V2 15 system components.

Property	Value
Closing Mechanism	Soft Close with End Stop
Handing	Left Hand
