

Hawa Concepta III V2 15 Push Slide-In Set – Right Hand

Variant code: 53523

The **Hawa Concepta III V2 15 Push Slide-In Set** is a dedicated system component for **pivot and slide-in furniture doors**. This **right-hand version** features the **Push function** and is specifically designed for **handleless cabinet constructions**.

Designed as part of the **Concepta III V2 15** system, the slide-in set supports furniture applications where a wooden door pivots and then moves laterally into a cabinet pocket. The **Push configuration** is intended for furniture without handles, supporting a clean and uniform cabinet front while allowing the operating technology to remain concealed.

The right-hand slide-in set is designed to work with the corresponding **Concepta III V2 15 basic set and complementary system components**. As part of the complete system, it enables the door to be moved away from the front of the cabinet and **laterally retracted into the furniture construction**.

Product Features

- **Right-hand slide-in set** for the Concepta III V2 15 system
- Features the **Push function**
- Specifically intended for **handleless cabinet constructions**
- Designed for **pivot and slide-in furniture door applications**
- Forms part of a system for the **pivoting and lateral insertion of wooden doors**
- Allows the door to retract laterally into the **furniture construction**
- Supports a clean and **handle-free furniture design**
- Designed to integrate with complementary **Concepta III V2 15 components**
- Supports furniture designs where the operating technology remains **concealed from view**

Product Benefits

- **Push function is specifically designed for modern handleless cabinet constructions**
- **Slide-in operation allows the door to move laterally out of the working area as part of the complete Concepta system**
- **Right-hand configuration provides the appropriate slide-in arrangement for right-hand installations**
- **Supports a uniform and flush-front furniture appearance** when incorporated into the complete system
- **Concealed operating technology helps maintain a minimal and uncluttered cabinet design**
- **Integrates with the modular Concepta III V2 system for creating pivoting and laterally retracting furniture doors**

Technical Characteristics

- **Product Type:** Pivot & Slide-In Door Slide-In Set
- **System:** Concepta III V2 15
- **Function:** Push
- **Handing:** Right Hand
- **Furniture Configuration:** Handleless
- **Door Type:** Wooden Door System
- **Door Movement:** Pivoting & Lateral Slide-In
- **Installation:** Right Hand
- **System Component:** Slide-In Set

Applications

The **Hawa Concepta III V2 15 Push Slide-In Set – Right Hand** is designed for **right-hand handleless furniture installations** using the Concepta III V2 15 system. Its dedicated **Push function** is intended for cabinet constructions without handles, enabling the wooden door to pivot and move laterally into the furniture construction when combined with the required complementary **Concepta III V2 15 system components**.
