

Hawa Concepta III V2 15 Push Slide-In Set – Left Hand

Variant code: 53522

The **Hawa Concepta III V2 15 Push Slide-In Set** is a dedicated system component for **pivot and slide-in furniture doors**. This **left-hand version** features the **Push function** and is specifically designed for **handleless cabinet constructions**.

Designed as part of the **Concepta III V2 15** system, the slide-in set supports furniture applications where the door pivots and then moves laterally into a cabinet pocket. The **Push configuration** enables a clean handleless furniture concept while allowing the operating technology to remain concealed.

The slide-in set is intended to work with the corresponding **Concepta III V2 15 basic set and complementary system components** to create the complete pivot and slide-in door installation. The left-hand configuration provides the appropriate slide-in arrangement for installations requiring the door to operate from the **left-hand side**.

Product Features

- **Left-hand slide-in set** for the Concepta III V2 15 system
- Features the **Push function**
- Specifically designed for **handleless cabinet constructions**
- Designed for **pivot and slide-in furniture door applications**
- Allows the door to move laterally into a **furniture pocket** as part of the complete system
- Supports a clean and **handle-free furniture design**
- Designed to integrate with the corresponding **Concepta III V2 15 system components**
- Operating technology can remain **concealed within the furniture construction**

Product Benefits

- **Push function is specifically designed**

for clean, handleless cabinet constructions

- **Slide-in operation** allows the door to move laterally into the furniture pocket as part of the complete Concepta system
- **Left-hand configuration** provides the appropriate slide-in arrangement for left-hand installations
- Supports furniture designs with a **minimal and uncluttered appearance**
- Concealed operating technology helps maintain a **clean furniture front**
- Forms part of the modular Concepta III V2 system for creating **pivoting and laterally retracting furniture doors**

Technical Characteristics

- **Product Type:** Pivot & Slide-In Door Slide-In Set
- **System:** Concepta III V2 15
- **Function:** Push
- **Handing:** Left Hand
- **Furniture Configuration:** Handleless
- **Door Movement:** Pivoting & Lateral Slide-In
- **Installation:** Left Hand
- **System Component:** Slide-In Set

Applications

The **Hawa Concepta III V2 15 Push Slide-In Set – Left Hand** is designed for **left-hand handleless furniture installations** using the Concepta III V2 15 system. Its dedicated **Push function** is intended for cabinetry without handles, allowing the door to pivot and move laterally into a furniture pocket when combined with the required complementary **Concepta III V2 15 components**.
