

Hawa Folding Concepta III V2 – Cabinet Track Set – Floor Connection – Right Hand

Variant code: 53447

The **Hawa Folding Concepta III V2 Cabinet Track Set** is a dedicated system component for compatible **Hawa Folding Concepta III V2** furniture door installations. This version is configured for a **right-hand cabinet installation** and is designed for applications requiring a **floor connection**.

As part of the modular **Folding Concepta III V2 system**, the track set provides the track components required for the corresponding cabinet configuration. It forms part of the hardware arrangement that enables compatible folding doors to be moved laterally away from the cabinet opening.

This is a **system component rather than a complete folding door hardware set** and is intended to be used with the appropriate compatible Folding Concepta III V2 components required for the complete installation. The **right-hand configuration** allows the track arrangement to be selected according to the required orientation of the furniture system.

Product Features

- **Dedicated cabinet track set** for compatible Hawa Folding Concepta III V2 systems
- Designed for a **right-hand configuration**
- Specified for a **floor connection**
- Forms part of the modular **Folding Concepta III V2 furniture door system**
- Provides track components for the corresponding **cabinet installation**
- Supports the system's **folding and lateral door movement**
- Designed to be combined with the appropriate compatible **Folding Concepta III V2 system components**
- Suitable for professional **furniture and cabinetry installations**

Product Benefits

- **Purpose-designed for the right-hand Folding Concepta III V2 cabinet configuration**
- **Floor connection configuration provides the appropriate track arrangement for the corresponding installation type**
- **Modular design allows the correct system components to be selected according to the furniture configuration**
- Supports the **space-efficient folding and lateral movement** of compatible furniture doors
- Right-hand configuration enables the hardware arrangement to match the required **opening orientation**
- Dedicated system compatibility helps create a coordinated **Folding Concepta III V2 installation**

Technical Characteristics

- **Product Type:** Cabinet Track Set
- **System:** Folding Concepta III V2
- **Configuration:** Right Hand
- **Connection Type:** Floor Connection
- **Application:** Furniture / Cabinet Door System
- **System Function:** Folding & Lateral Door Movement
- **Installation Type:** Modular System Component
- **Supply Type:** Track Set

Applications

The **Hawa Folding Concepta III V2 Cabinet Track Set – Floor Connection – Right Hand** is designed for compatible **Folding Concepta III V2 furniture and cabinetry installations** requiring a right-hand configuration with floor connection. Used with the appropriate compatible system components, the track set forms part of a furniture door solution that allows the doors to **fold and move laterally away from the cabinet opening**, making it suitable for space-efficient cabinetry and furniture designs.
