

Hawa Folding Concepta III V2 – Cabinet Track Set – Floor Connection – Left Hand

Variant code: 53446

The **Hawa Folding Concepta III V2 Cabinet Track Set** is a dedicated track component for compatible **Hawa Folding Concepta III** furniture door systems. This version is configured for a **left-hand installation** and is designed for a **cabinet application with floor connection**.

As part of the modular Folding Concepta III system, the track set provides the required **running and guiding track components** for the corresponding installation configuration. The Folding Concepta III system is designed for furniture applications where doors can be folded and moved laterally out of the main cabinet opening.

The track set is intended to be combined with the appropriate **upright set, slide-in set and basic set** to create a complete functional Folding Concepta III installation. This modular approach allows the appropriate components to be selected according to the required door arrangement, opening direction and system configuration.

Product Features

- **Dedicated cabinet track set** for Hawa Folding Concepta III systems
- Designed for a **left-hand configuration**
- Specified for a **floor connection installation**
- Forms part of the modular **Folding Concepta III furniture door system**
- Provides the corresponding **running and guiding track components**
- Designed for use with compatible **wooden furniture door systems**
- Supports the Folding Concepta III **folding and lateral door movement**
- Designed to be combined with the appropriate **upright, slide-in and basic sets**

Product Benefits

- **Purpose-designed track components provide the correct foundation for a compatible left-hand Folding Concepta III installation**
- **Modular system design allows the track set to be combined with the appropriate components for the required furniture configuration**
- **Supports the space-efficient folding and lateral movement associated with the Folding Concepta III system**
- **Left-hand configuration allows the hardware to be selected according to the required door opening arrangement**
- **Dedicated floor connection configuration provides a solution for the corresponding cabinet installation type**
- **Forms part of a system designed to create flush, space-efficient furniture fronts**

Technical Characteristics

- **Product Type:** Cabinet Track Set
- **System:** Folding Concepta III V2
- **Configuration:** Left Hand
- **Connection Type:** Floor Connection
- **Application:** Cabinet / Furniture Door System
- **Door Application:** Wooden Furniture Doors
- **System Function:** Folding & Lateral Door Movement
- **Installation Type:** Modular System Component
- **Additional Components Required:** Appropriate Upright Set, Slide-In Set & Basic Set

Applications

The **Hawa Folding Concepta III V2 Cabinet Track Set – Floor Connection – Left Hand** is intended for compatible **Folding Concepta III furniture and cabinetry installations** requiring a left-hand arrangement and floor connection. Used together with the appropriate **upright, slide-in and basic system components**, the track set forms part of a space-efficient furniture door solution in which the doors can be folded and moved laterally away from the cabinet opening.
