#### Key Features & Benefits

| Feature                       | Benefit                                                                                                                 |
|-------------------------------|-------------------------------------------------------------------------------------------------------------------------|
| <b>Dual Capacity (60/100)</b> | Supports door weights up to 60 kg or a heavy-duty <b>100 kg sliding door</b> (220 lbs), offering versatile application. |
| <b>High-Grade Aluminium</b>   | Ensures <b>long-lasting durability</b> , corrosion resistance, and a <b>premium finish</b> .                            |
| <b>Pre-Drilled Track</b>      | Ready for immediate installation, <b>saving significant time</b> and guaranteeing precise, flush mounting.              |
| <b>2000mm (2m) Length</b>     | Ideal standard length for                                                                                               |

| Feature                | Benefit                                                                                                                                 |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
|                        | common door openings and room dividers. Available in <b>multiple sizes</b> .                                                            |
| <b>Top-Hung System</b> | Provides a <b>clean, floor-free threshold</b> (no bottom track required), minimising tripping hazards and maximising design aesthetics. |
| <b>Compatibility</b>   | Fully compatible with <b>Hawa Porta 60/100 fitting sets</b> (sold separately), including <b>soft-close</b> mechanisms.                  |

## Technical Specifications

- **Model:** Hawa Porta 60/100
- **Product Type:** Single Running Top Track
- **Material:** Aluminium (Raw or Anodized finish available)
- **Length:** 2000 mm (2 Meter)
- **Door Weight Capacity:** Up to **100 kg** (Suitable for both 60 kg and 100 kg applications)
- **Door Material:** Primarily designed for **wooden sliding doors** (consult fitting set specs for glass compatibility).
- **Door Thickness:** Typical range **30 mm to 80 mm** (varies based on specific Hawa Porta fitting set).
- **Mounting:** Ceiling mounting or surface-mounted running track (can be used for **pocket door systems** with correct components).
- **Feature:** **Pre-drilled holes** for simplified and secure fixing.
- **Manufacturer:** Hawa Sliding Solutions AG

## Frequently Asked Questions (FAQs)

**Q:** What is the maximum door weight the Hawa

**Porta 60/100 track can support?**

A: The Hawa Porta 60/100 is a heavy-duty sliding track designed to support wooden doors up to 100 kg (220 lbs). It can also be used for lighter doors (e.g., 60 kg) with the corresponding Hawa Porta 60 fitting set.

**Q: Is this a complete sliding door system?**

A: No, this is the running track only. You will need to purchase a separate Hawa Porta 60 or Hawa Porta 100 fitting set (including carriages, stoppers, and floor guide) to complete your sliding door system.

**Q: Does the track come with the soft-close mechanism?**

A: No, the Hawa Soft Close mechanism is an optional accessory that must be purchased separately. It can be easily integrated into the Hawa Porta 60/100 track for dampened opening and closing.

**Q: Can I cut the 2000mm running track to a shorter size?**

A: Yes, the aluminium sliding door track can be professionally cut down to your specific required length using appropriate tools.

**Q: Is the track suitable for a pocket door application?**

A: Yes, the Hawa Porta 60/100 running track is a core component used in various pocket door systems like the Hawa Porta 100 HMT Pocket solution.

## Installation and Compatibility Notes

- **Installation Type:** Can be installed as a **surface-mounted running track** or recessed for a **ceiling-integrated** (flush with ceiling) look using the appropriate mounting accessories.
- **Required Components:** This track requires a compatible Hawa Porta roller carriage set (e.g., Porta 60 H/HM or Porta 100 H/HM) and a floor guide.
- **Recommended Accessory:** Enhance comfort and safety with the optional **Hawa Soft Close** mechanism for quiet and controlled door movement.
