Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Arm Cover Plate Overlay - Black Nickel

Variant code: ACH09100BN

Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Arm Cover Plate Overlay - Black Nickel is designed to conceal and protect the exposed hinge arm on overlay concealed hinge installations, enhancing both durability and cabinet presentation. Manufactured by **Sugatsune**, a globally recognised specialist in precision architectural and furniture hardware, this cover plate provides a refined finishing detail while maintaining compatibility with heavy-duty concealed hinge systems.

The arm cover plate fits directly over the hinge arm to **hide exposed mechanical components**, creating a cleaner and more uniform cabinet interior. By covering visible hinge elements, it improves the overall aesthetic while also helping protect the hinge from dust, debris and incidental contact during everyday use. This contributes to maintaining consistent hinge performance and prolonging the lifespan of the hardware.

Designed specifically for **overlay concealed hinge applications**, the cover plate integrates seamlessly with compatible Sugatsune hinge systems without interfering with hinge movement or door operation. Its precision fit ensures that the hinge retains full functionality while benefiting from improved visual concealment.

Finished in a **Black Nickel surface**, the cover plate provides a modern and coordinated appearance, making it suitable for contemporary cabinetry and darker hardware schemes. The durable finish enhances resistance to wear while maintaining a consistent look across cabinet interiors and hardware components.

Product Features

- Designed to **cover concealed hinge arm components**
- Compatible with **heavy-duty concealed hinge systems**
- **Overlay application compatibility**
- **Black Nickel finish** for modern cabinet

aesthetics
- Helps protect hinge components from dust and contact
- Precision fit that does not interfere with hinge operation

Product Benefits

- Creates a cleaner and more refined cabinet interior appearance
- Enhances the visual finish of concealed hinge installations
- Protects hinge components from wear and debris
- Supports coordinated cabinet hardware design
- Maintains smooth hinge performance
- Suitable for residential and commercial cabinetry

Technical Characteristics

- Cover plate for concealed hinge arm protection
- Designed for overlay cabinet hinge applications
- Compatible with Sugatsune heavy-duty hinge systems
- Black Nickel surface finish
- Snap-on or fitted installation over hinge arm
- Suitable for interior cabinet use

Applications

This hinge arm cover plate is used in cabinetry where heavy-duty concealed hinges are installed and a clean, concealed finish is required. It is commonly specified in kitchens, wardrobes, office furniture and commercial joinery projects where both durability and visual presentation are important. The Black Nickel finish makes it particularly suitable for contemporary furniture designs and coordinated dark hardware schemes.
