Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Inset Arm Cover Plate - Black Nickel

Variant code: ACH09500BN

Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Arm Cover Plate Overlay - Black Nickel is designed to neatly conceal and protect the exposed hinge arm in overlay concealed hinge installations, enhancing both durability and overall cabinet presentation. Manufactured by **Sugatsune**, a globally recognised specialist in precision architectural and furniture hardware, this cover plate delivers a refined finishing detail while maintaining full compatibility with heavy-duty concealed hinge systems.

The cover plate fits securely over the hinge arm to **hide visible mechanical components**, creating a cleaner and more consistent cabinet interior. By reducing exposed hardware, it improves the visual finish while also helping to protect the hinge mechanism from dust, debris and incidental contact during everyday use. This supports long-term hinge performance and reliability.

Designed specifically for **overlay cabinet door applications**, the cover plate integrates seamlessly with compatible Sugatsune concealed hinges without interfering with hinge movement or door operation. Its precision fit ensures that functionality is maintained while enhancing the overall appearance of the installation.

Finished in a **Black Nickel coating**, the cover plate provides a contemporary, darker aesthetic that complements modern cabinetry and coordinated hardware schemes. The durable finish resists wear and maintains a consistent look across cabinet interiors.

Product Features

- Designed to **conceal hinge arm components**
- Compatible with **heavy-duty concealed hinge systems**
- **Overlay application compatibility**
- **Black Nickel finish** for modern cabinetry
- Helps protect hinge components from dust and damage

- Precision fit without affecting hinge performance

Product Benefits

- Creates a clean and refined cabinet interior appearance
- Enhances the visual quality of hinge installations
- Protects hinge mechanisms from wear and debris
- Maintains consistent hinge performance over time
- Supports coordinated dark hardware design schemes
- Suitable for residential and commercial cabinetry

Technical Characteristics

- Cover plate for concealed hinge arm protection
- Designed for overlay cabinet hinge configurations
- Compatible with Sugatsune heavy-duty concealed hinges
- Black Nickel surface finish
- Snap-on or push-fit installation over hinge arm
- Suitable for internal cabinet applications

Applications

This hinge arm cover plate is used in cabinetry where overlay concealed hinges are installed and a clean, professional finish is required. It is commonly specified in kitchens, wardrobes, office furniture and commercial joinery projects where both durability and appearance are important. The Black Nickel finish makes it particularly suitable for contemporary interiors and coordinated dark hardware schemes.
