

Cable Grommet, 72mm x 37mm – Gold

Variant code: LN72P-GC

Cable Grommet is a premium rectangular cable management solution designed to provide a neat and professional finish for routing cables through desks, worktops and furniture. Measuring **72mm x 37mm** and finished in an elegant **gold**, this grommet conceals cable entry points while protecting cables from abrasion, making it ideal for modern residential and commercial interiors where both functionality and appearance are important.

Manufactured to Sugatsune's renowned quality standards, the grommet offers durable construction and a smooth cable opening that allows power, data and communication cables to pass cleanly through furniture. The stylish gold finish enhances premium furniture and architectural joinery, while the low-profile design integrates seamlessly into desktops, conference tables, media units and cabinetry.

Suitable for professional furniture manufacturers, office fit-out specialists and bespoke joinery projects, the Sugatsune Cable Grommet delivers an attractive, practical cable management solution that helps maintain organised workspaces and protects cables from unnecessary wear.

Product Features

- Premium rectangular cable grommet
- Overall dimensions: 72mm x 37mm
- Elegant gold finish
- Provides neat cable routing through furniture
- Protects cables from edge wear and abrasion
