Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Mounting Plate - Nickel

Variant code: ACH09900

Sugatsune Heavy Duty Concealed Cabinet Door Hinge - Mounting Plate - Nickel is designed to provide a secure and adjustable fixing point for concealed hinge installation within cabinet carcasses. Manufactured by **Sugatsune**, a globally recognised specialist in precision architectural and furniture hardware, this mounting plate forms an essential part of the concealed hinge system, ensuring stability, alignment and long-term performance.

The mounting plate attaches to the cabinet interior and allows the hinge arm to be securely connected, creating a stable interface between the cabinet and door. It supports **accurate hinge positioning and consistent door alignment**, enabling smooth operation and reliable performance in everyday use.

Designed for compatibility with **Sugatsune heavy-duty concealed hinges**, the mounting plate integrates seamlessly into the hinge system without affecting functionality. It supports efficient installation and adjustment, allowing precise control over door positioning to achieve consistent gaps and alignment across cabinet runs.

Manufactured from steel with a **durable nickel-plated finish**, the mounting plate offers a clean and neutral appearance suitable for a wide range of cabinetry styles. The robust construction ensures reliable fixing within the cabinet structure, making it suitable for both residential and commercial applications where durability and precision are required.

Product Features

- **Mounting plate for concealed cabinet hinge systems**
- Provides **secure fixing to cabinet carcass**
- Compatible with **Sugatsune heavy-duty hinges**
- Supports accurate hinge positioning and

alignment
- **Nickel-plated steel finish**
- Designed for stable and durable installation

Product Benefits

- Ensures secure and reliable hinge installation
- Supports precise door alignment and consistent gaps
- Enhances overall hinge performance and stability
- Allows efficient installation and adjustment
- Provides long-term durability in cabinet applications
- Suitable for residential and commercial use

Technical Characteristics

- Mounting plate for concealed hinge systems
- Designed for cabinet carcass installation
- Compatible with Sugatsune heavy-duty hinge ranges
- Nickel-plated steel construction
- Supports hinge arm attachment and adjustment
- Suitable for standard cabinet configurations

Applications

This mounting plate is used in cabinetry where concealed hinges are installed and precise alignment is required. It is commonly specified in kitchens, wardrobes, office furniture and commercial joinery projects where durability and accuracy are essential. The mounting plate provides a stable connection between the cabinet and hinge, ensuring consistent performance and a clean, professional finish across a wide range of cabinet designs.
