Heavy Duty Adjustable Roller Catch - 51mm - Satin Stainless Steel

Variant code: 2418.01.SSS

The **Heavy Duty Adjustable Roller Catch** is a durable door catch designed to provide smooth, reliable door retention without the need for a conventional latch. Featuring a spring-loaded adjustable roller mechanism, it delivers secure door closure while allowing the door to open easily with minimal effort. Ideal for internal timber doors, this roller catch is suitable for applications where quiet operation and a clean, latch-free appearance are preferred.

Manufactured for dependable, long-lasting performance, the adjustable roller allows the holding pressure to be fine-tuned for a precise fit and consistent operation. Suitable for wardrobes, cupboards, utility rooms and internal passage doors, it offers a practical solution for both residential and commercial environments. Available in **Satin Stainless Steel (SSS)** and **Satin Brass / Polished Brass (SB/PB)** finishes, it complements a wide range of contemporary and traditional architectural ironmongery.

Designed for everyday reliability, the Heavy Duty Adjustable Roller Catch provides a low-maintenance, hard-wearing solution that keeps doors securely closed while ensuring smooth, quiet operation throughout its service life.

Product Features

- Heavy duty adjustable roller catch
- Spring-loaded adjustable roller mechanism
- Smooth and quiet door operation
- Adjustable holding tension for accurate door alignment
- Suitable for internal timber doors
- Durable metal construction
- Easy to install and adjust
- Available in Satin Stainless Steel (SSS) and Satin Brass / Polished Brass (SB/PB)

Product Benefits

- **Provides reliable door retention without the need for a traditional latch**
