Heavy Duty Bathroom Lock - Satin Stainless Steel - 64mm

Variant code: 2415.45.55.SSS

The **Heavy Duty Bathroom Lock** is a premium mortice bathroom lock designed to provide smooth, secure and reliable privacy locking for internal bathroom and washroom doors. Finished in **Satin Stainless Steel (SSS)**, this high-performance lock is suitable for residential, commercial and public buildings, offering dependable operation in high-use environments. Its robust construction and advanced features make it the preferred choice for professional installers and national house builders.

Featuring an innovative **Easi-T reversible latch bolt**, the handing of the latch can be changed in seconds without dismantling the lock case, making installation quicker and more convenient. Certified to **BS EN 12209**, the lock has also been **CE marked and Certifire tested**, providing confidence in its quality and suitability for fire door applications where specified. Designed for long-term reliability, it carries a **10-year mechanical guarantee** and delivers smooth, consistent performance under frequent daily use.

Suitable for a wide variety of domestic, commercial and industrial applications, the Heavy Duty Bathroom Lock combines proven durability, easy installation and modern satin stainless steel styling to provide a dependable privacy locking solution for today's architectural projects.
