

Heavy Duty Pivot Set inc Adjustable Top Centre & Bottom Strap – Satin Stainless Steel (12057)

Variant code: PS190

PS190 Heavy Duty Pivot Set is for large and heavy door sets. The PS190 is spindle bearing which helps improve performance and also has a double lockable anti-vibration door strap. This helps to hold the door inline and maintains the fire integrity which is the length of time that it can hold out in the event of a fire.

Features:

Max Door weight: 175kg

Spindle bearing – for improved performance

Double lockable anti-vibration door strap – holding the door inline and maintaining the fire integrity

Stronger bottom strap with universal pattern slot – can be used on most manufactured spindle bearings or floor springs
