Blum Glass Door Hinge - Boss Cover Cap - D-shape - Gold

Variant code: 84.4120G

Blum Glass Door Hinge - Boss Cover Cap - D-Shape is designed to provide a clean and protective cover for hinge boss fixings used on Blum glass door hinge systems. Manufactured by **Blum**, a globally recognised specialist in cabinet hardware, this component enhances the visual finish of glass door installations while protecting exposed fixing points.

The cover cap fits over the hinge boss area to conceal the fixing point after installation. Its **D-shape profile** is designed specifically to match the geometry of Blum glass door hinge assemblies, ensuring a neat and consistent appearance once fitted. By covering exposed fixings, the cap contributes to a more refined cabinet presentation while helping protect the fixing area from dust and debris.

Designed for compatibility with **Blum glass door hinge systems**, the cover cap installs quickly without affecting hinge alignment or adjustment. The compact design allows it to sit flush with the hinge assembly, maintaining the clean and minimal aesthetic typically required for glass cabinet doors.

Manufactured from durable material, the cap is engineered to withstand regular cabinet use while maintaining a tidy and professional finish within Blum hinge installations.

Product Features

- **D-shape boss cover cap** for glass door hinge fixings
- Designed for **Blum glass door hinge systems**
- Conceals exposed hinge boss fixings
- Compact design for clean cabinet appearance
