

## Salice Air Soft Close Concealed 105° Hinge – Set for 1 Door – Titanium Finish

**Variant code: ACH06007BN**

The innovative and revolutionary hinge

Despite its compactness and small size, Air delivers full functionality to furniture manufacturers.

It is inserted into the top and bottom of the cabinet door and is practically invisible. Its small size means that the applications for Air are numerous: kitchens, bathrooms, living and bedroom furniture or display cabinets.

- The hinge is characterised by compactness and by a small size; it incorporates an integrated soft close mechanism for decelerated closing.
- It is fitted to the top and bottom panel of the cabinet.
- For min. 18mm thick wooden doors and for aluminium-framed doors.
- Max door weight 20kg.
- Max dimensions of the door: height 2100 mm, width 600 mm.
- 16.5mm deep metal cup.
- L = 2.5mm
- 105° opening.
- Possible drilling distance on the door (K): from 3 to 6 mm for wooden doors.
- Fixed K = 4 mm for aluminium-framed doors.

Property	Value
Finish	Nickel Plated
Opening angle (°)	105
Max Door Weight (kg)	25
Door Thickness (mm)	Wooden Doors, Aluminium-framed Doors

## A close-up photograph of a window frame corner. The frame is made of dark, possibly black, metal or plastic. The hinge mechanism is visible, showing several screws and a central pivot point. To the left of the frame, a white, cylindrical object, likely a roll of material, is partially visible. The background is a plain, light-colored wall.
