

Kimana Flap Hinge Set, 90° for Flaps or Lid Stays – Black Nickel Plated

Variant code: ACH04012BN

- Provided with a unique and exclusive movement, this hinge allows to open cabinet doors in column.
- New: it could also be used for flap doors.
- The small dimensions (Ø 26mm boring for both the door and the bottom), the minimalistic and elegant design contribute to make KIMANA not only a functional hinge, but also a product unique in its genre.
- The fixing screws are perpendicular, suitable for perfect positioning, as well as for aluminum profiles.
- KIMANA can be easily adjusted through the screws (PZ2) which are hidden underneath the cover.
- Various door and cabinet thickness-combinations can be solution either by carrying out the adjustments of the KIMANA or by placing adapters under the hinge clip.

900 Series Cabinet

Technical drawings showing dimensions for the 900 Series Cabinet and Doors.
