

Kimana Flap Hinge Set, 90° for Flaps or Lid Stays – Black Nickel Plated

Variant code: ACH04012BN

- Provided with a unique and exclusive movement, this hinge allows to open cabinet doors in column.
- New: it could also be used for flap doors.
- The small dimensions (Ø 26mm boring for both the door and the bottom), the minimalistic and elegant design contribute to make KIMANA not only a functional hinge, but also a product unique in its genre.
- The fixing screws are perpendicular, suitable for perfect positioning, as well as for aluminum profiles.
- KIMANA can be easily adjusted through the screws (PZ2) which are hidden underneath the cover.
- Various door and cabinet thickness-combinations can be solution either by carrying out the adjustments of the KIMANA or by placing adapters under the hinge clip.
