Lamello Invis MX2 Connector Set with 14mm Stud - Each

Variant code: MX2

Invis Mx is the unique connection that satisfies the highest demands for aesthetics, stability and productivity. With no visible openings, Invis Mx can be quickly detached and reconnected at any time via its magnet drive. The Invis Mx connectors and studs are quickly and easily screwed into prepared 12 mm drill holes using a cordless drill. The MiniMag is then fixed to the cordless drill and rotated on the surface to close the connection with a clamping force of up to 250 kg per connector. Supplied with 14mm Stud. Price Each
