

Legrabox Back Fixing Bracket 'F' Height – Left & Right Hand – Orion Grey

Variant code: ZB7F000SOG

Designed for seamless integration with Blum's Legrabox drawer systems, this essential component ensures unparalleled stability and precision in cabinet construction. Available in both left and right-hand configurations, these brackets provide the perfect solution for creating robust and flawlessly aligned drawers.

Ideal for:

- **Joiners & Cabinet Makers:** Achieve superior drawer stability and simplify installation with these precision-engineered brackets. Streamline your workflow and deliver exceptional results.
- **Architects & Designers:** Specify high-quality components that enhance the functionality and longevity of your designs. The Orion Grey finish adds a touch of modern elegance to any interior.
- **Project Managers & Contractors:** Ensure projects stay on schedule and within budget by utilising reliable and easy-to-install hardware. Minimise callbacks and maximise client satisfaction.
- **Kitchen & Bathroom Installers:** Guarantee robust drawer performance in high-use areas with these durable back fixing brackets.

Key Features & Benefits:

- **Precision Engineering:** Designed for perfect compatibility with Blum Legrabox systems, ensuring accurate alignment and smooth drawer operation.
- **Robust Stability:** Provides enhanced support to drawer backs, preventing sagging and ensuring long-lasting performance.
- **Orion Grey Finish:** A modern and sophisticated finish that complements a wide range of interior designs.
- **Left & Right Hand Configurations:** Available as a pair for complete cabinet integration.
- **Durable Construction:** Built to withstand the demands of daily use in residential

and commercial settings.

- **Simplified Installation:** Streamlines the cabinet assembly process, saving time and labour.
