

Legrabox Blumotion Runners 40Kg – 300mm NL – Left & Right Hand – Boxes of 12 – Austrian

Variant code: 750.3001SV1

Optimise functionality and enhance the quality of your projects with the industry-leading **Legrabox Blumotion Runners**. This bulk pack of 12 left and right-hand runner sets provides the perfect solution for creating premium drawers with effortless, silent closing. Designed for a 40kg load capacity and a nominal length (NL) of 270mm, these runners are ideal for a wide range of applications across residential and commercial builds.

Key Benefits for Your Business:

- **Uncompromising Quality & Reliability:** Built by Blum, a trusted name in furniture hardware, Legrabox Blumotion runners are engineered for exceptional durability and smooth operation, ensuring long-lasting performance and client satisfaction.
- **Silent & Effortless Closing:** Integrated Blumotion technology guarantees soft and silent drawer closing, adding a touch of luxury and sophistication to kitchens, cabinetry, and storage solutions. This is a key selling point for discerning clients.
- **Versatile Application:** The 40kg load capacity and 270mm nominal length make these runners suitable for various drawer sizes and applications, from kitchen drawers and pantry pull-outs to office storage and bespoke furniture.
- **Streamlined Installation:** Designed for ease of installation, saving you valuable time and labour on site or in the workshop. The left and right-hand configuration ensures a perfect fit every time.
- **Bulk Savings:** This convenient box of 12 offers a cost-effective solution for larger projects and repeat installations, improving your project margins.
- **Enhanced Design Flexibility:** The sleek and minimalist design of Legrabox runners integrates seamlessly into any design aesthetic, allowing your creative

vision to take centre stage.

Why Choose Legrabox Blumotion Runners?

As **joiners**, you'll appreciate the precise engineering and reliable performance that simplifies installation and ensures the longevity of your crafted pieces.

Architects and **project managers** can specify Legrabox with confidence, knowing they are selecting a high-quality component that meets the demands of modern design and delivers exceptional user experience.

Kitchen designers will value the smooth, silent operation and robust load capacity, allowing for the creation of premium, functional, and aesthetically pleasing kitchen spaces that impress clients.
