Blum Legrabox Connector Brackets - for 'C' Height Drawer Front - Glass Inner - Silk White

Variant code: ZI7.2CS0SSW

Blum LEGRABOX Connector Bracket - Drawer Front Fixing C Height is designed to securely connect drawer fronts to LEGRABOX drawer sides in C height configurations, ensuring **precise alignment**, **secure fixing** and **consistent drawer performance**. As part of Blum's precision-engineered LEGRABOX system, this component plays a key role in achieving accurate front positioning and maintaining the structural integrity of the drawer assembly.

Developed specifically for **C height drawer systems (177.5mm)**, the connector bracket enables reliable attachment of drawer fronts while supporting **fine adjustment capability**. This allows installers to achieve consistent gaps, clean lines and uniform reveals across multiple drawers. Engineered for seamless integration, it works in conjunction with LEGRABOX drawer sides, runners and fixing components to deliver stable and repeatable installation results.

Designed for use in left and right-hand configurations, the bracket supports correct orientation during installation, ensuring **accurate positioning and secure retention**. Manufactured for durability, it provides long-term performance in both residential and commercial cabinetry applications.

Product Features

- Designed for **Blum LEGRABOX drawer systems**
- Suitable for **C height (177.5mm) drawer configurations**
- Provides **secure fixing of drawer fronts**
- Enables **precise alignment and adjustment**
- Available in **Left and Right hand options**
- Compatible with LEGRABOX system components

Product Benefits

- Ensures **accurate and consistent**

drawer front positioning
- Supports **clean, uniform drawer appearance**
- Enhances stability of drawer front fixing
- Simplifies installation and adjustment
- Enables professional and repeatable installation results
- Suitable for **residential and commercial furniture applications**

Technical Characteristics

- Requires pairing with **LEGRABOX drawer sides and runners**
- Designed for integration with drawer front fixing systems
- Handing must match drawer orientation
- Supports fine adjustment during installation
- Engineered for durability and repeated use
- Ensures optimal performance within the LEGRABOX system

Applications

This connector bracket is suitable for **kitchen cabinetry, wardrobes, storage units and fitted furniture** where precise drawer front fixing is required. It is particularly suited to **C height drawer configurations**, ensuring accurate alignment and secure attachment of drawer fronts. The availability of **left and right-hand variants** allows correct installation across a wide range of drawer designs while maintaining consistent performance and visual alignment.
