

Blum Legrabox Connector Brackets for 'C' Height Drawer Front – Glass Inner – Silk White

Variant code: ZI7.2CSOSSW

Achieve a sophisticated aesthetic and effortless installation with Silk White Legrabox Connector Brackets, the ideal solution for 'C' height glass inner drawer fronts.

These high-quality connector brackets provide a robust and aesthetically pleasing solution for seamlessly integrating 'C' height drawer fronts with glass inners within the renowned Legrabox drawer system. Designed for professionals who demand precision, durability, and a flawless finish, these brackets are the ideal choice for **joiners, cabinet makers, kitchen designers, architects, and project managers** seeking superior results.

Key Benefits for Your Business:

- **Enhanced Aesthetics:** The sleek Silk White finish perfectly complements modern interior designs and ensures a cohesive look with glass inner drawer fronts, adding a touch of understated elegance to any project.
- **Secure and Reliable Connection:** Engineered for the Legrabox system, these brackets provide a strong and stable connection between the drawer front and the drawer box, guaranteeing long-lasting performance and user satisfaction.
- **Simplified Installation:** Designed with ease of use in mind, these connector brackets streamline the installation process, saving valuable time and labour on site or in the workshop.
- **Precise Alignment:** Achieve perfect drawer front alignment effortlessly, ensuring a professional and high-quality finish every time. This reduces the need for adjustments and rework.
- **Durability and Longevity:** Constructed from robust materials, these brackets are built to withstand the rigours of daily use, ensuring the longevity and reliability of your cabinetry projects.
- **Seamless Integration:** Specifically

designed for 'C' height drawer fronts with glass inners within the Legrabox system, ensuring perfect compatibility and a flawless fit.

- **Improved Project Quality:** By utilising these premium connector brackets, you can elevate the overall quality and perceived value of your furniture and cabinetry projects.

Why Choose Legrabox Connector Brackets for Your Projects?

As a **joiner**, you'll appreciate the ease of installation and the secure, reliable connection these brackets provide, leading to faster project completion and fewer call-backs.

For **architects** and **kitchen designers**, these brackets offer a sophisticated and functional solution that aligns with high-end design specifications, ensuring a premium aesthetic and lasting quality for your clients.

Project managers will benefit from the streamlined installation process and the reduced risk of errors, contributing to efficient project timelines and cost-effectiveness.
