

Legrabox Drawer Side 'K' Height – 300mm NL – Left Hand – Orion Grey – Austrian

Variant code: 770K3002SOGLH

Crafted with renowned Austrian precision, this drawer side delivers unparalleled stability, sleek aesthetics, and long-lasting performance, making it an essential component for high-end residential and commercial projects.

Key Features & Benefits for Professionals:

- **Premium Austrian Engineering:** Experience the superior quality and durability synonymous with Austrian manufacturing, ensuring reliability for demanding applications.
- **'K' Height – 300mm NL:** Provides substantial drawer depth, maximising storage capacity and efficiency. Ideal for larger drawers in kitchens, offices, and custom furniture.
- **Left-Hand Configuration:** Specifically designed for left-side installations, ensuring seamless integration into your drawer systems.
- **Sophisticated Orion Grey Finish:** Offers a modern, elegant aesthetic that complements contemporary designs, appealing to discerning clients.
- **Robust Construction:** Built to withstand heavy loads and frequent use, guaranteeing longevity and client satisfaction.
- **Seamless Integration:** Compatible with the Legrabox system, facilitating smooth and precise drawer movement.
- **Optimised for Project Management:** Reduces installation time and ensures consistent quality across multiple units, streamlining project timelines.

Target Audience:

- **Joiners & Cabinet Makers:** Achieve flawless drawer installations with a product designed for precision and reliability.
- **Architects & Interior Designers:** Incorporate high-quality, visually appealing storage solutions into your designs.

- **Project Managers & Contractors:** Ensure timely project completion with components that minimise installation complexities.
- **Kitchen Fitters & Installers:** Deliver exceptional kitchen storage solutions with a product known for its performance and aesthetics.
- **Furniture Manufacturers:** Enhance the functionality and appeal of your furniture with premium drawer systems.
