Blum Legrabox Side Stabilisation - Extra Wide Drawers - 650mm

Variant code: ZS7M650LU

Conquer Wide Drawers with Legrabox Side Stabilisation: Unwavering Stability for Demanding Designs

Boost Functionality, Enhance Design, and Ensure Lasting Quality in Extra-Wide Drawers.

Are you facing challenges with drawer stability in your wider kitchen, furniture, or commercial projects? **Legrabox Side Stabilisation** provides the perfect solution, guaranteeing smooth, reliable operation for drawers with a nominal length (NL) of **up to 650mm**.

Designed for professionals like you:

- **Joiners & Cabinet Makers:** Eliminate drawer racking and ensure perfect alignment, even with heavy loads. Achieve superior craftsmanship and reduce call-backs.
- **Architects & Interior Designers:** Design confidently with wider drawer options, knowing that functionality won't be compromised. Offer clients seamless aesthetics and premium user experience.
- **Project Managers & Developers:** Streamline installations and ensure long-term durability in high-use environments. Reduce potential issues and maintain project timelines.
- **Kitchen Designers & Installers:** Create spacious and accessible storage solutions without sacrificing stability. Impress clients with drawers that glide effortlessly, even at maximum width.

Key Benefits for Your Business:

- **Enhanced Stability:** Prevents lateral movement and sagging in extra-wide drawers, ensuring smooth and consistent operation.
- **Increased Load Capacity:** Allows for the storage of heavier items without compromising drawer performance.
- **Improved Durability:** Extends the lifespan of your drawer systems, reducing
